## BENEFITS OF PARROT ESL

- Students are then given articles to read that contain the new word in context to reinforce their understanding.
- The method emphasizes active listening to improve understanding of spoken language.
- Parrot ESL is an effective way to improve language proficiency, suitable for learners of all levels.

# PARROT PROGRAM

BECI THE CAFE

**50 mins class (Mon - Fri)**

**The class is divided into 5 parts:**

- **Phonetic practice**- the teacher will teach how to produce the phonetic sound correctly.
- **Parroting**- the student will listen and mimic the teacher.
- **Minimal pairs**- this exercise help students recognize the difference between the target sound and other similar sounds.
- **ALPHABET and PHONETIC** Recognition and Acquisition.
- **Tongue Twisters**

**Class Type:** One- on-One Class

**Class Frequency:** 1 class a day;  
5 times a week

**Duration:** 4weeks (or upon request)

**Level:** All levels

*Students have their own mother tongue and English is a second language for them. Their native language, which students are accustomed to, interferes with their English learning. In the acquisition of English words, both pronunciation and comprehension are important, but when students meet English sounds that are not used to in their mother tongue, they replace them with sounds similar to those of their native language resulting to mispronunciations.*

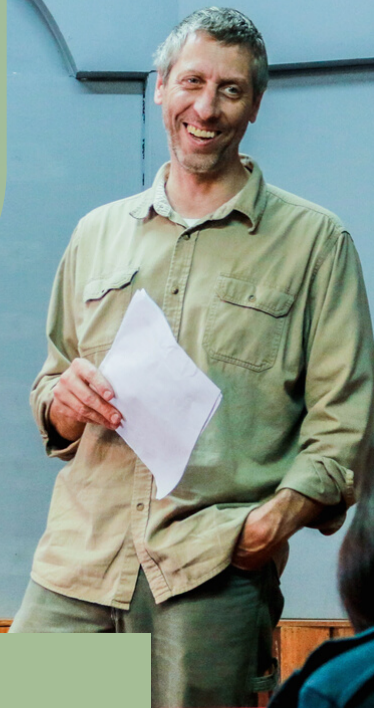

*Parrots can't read nor spell and, of course, don't know their meaning. It only listens to people's voices and imitates them. The Parrot program allows students to learn English sound first to avoid interference from the mother tongue.*

*Parrot ESL is an intensive pronunciation program wherein students learn the different sounds through parrotting and phonetic symbol acquisition.*

*This program does not only aim to provide students the necessary pronunciation skills, but also to help students recognize the relevance of correct pronunciation in real life scenarios.*

## REHAB PROGRAM

**Class Type:** Group Class

**Class Frequency:** 4 classes a day;  
5 times a week

**Duration:** 1 week

**Level:** All levels

The REHAB program is BECI THE CAFE'S key program which solves individual student's chronic problem and is special program which clearly settles 'pronunciation' problem.

This program is for English learners who need to master American English pronunciation. More importantly, the class will be conducted by a native speaker, so students can master techniques for learning how to hear and imitate English sounds firsthand.

It is designed for beginner to advanced students. It is intended to provide fundamental to highly advanced lessons in pronunciation and vocabulary to dramatically improve the clarity and precision with which students speak English, and to dramatically expand the vocabulary and improve the diction of students.

A native speaker teacher alternately corrects the student's pronunciation (1hr 30 mins) and reviews with Filipino teacher (3hrs).

## SPEAKING

*Prescription*

**Strict monitoring of language improvement in speaking through structured grammar approach.  
(Weekly Grammar Focus based).**

Students are given a certain grammar focus (Ex. Week 1- Basic Sentence Pattern). At the end of the week, weekly recorded video examinations are given. Video transcriptions are given after the exams.

The main goal of SP program is to increase the number of used expressions and to immediately correct the errors of the students so that they would be able to use correct expressions in everyday conversations.

A professional teacher in charge of SP transcribes the students spoken output from a recorded video and checks the errors on grammars, pronunciation and fluency.

This program is designed to diagnose students' weaknesses and provide necessary adjustments based on the diagnoses.

#### Features

- Daily grammar lessons to enhance students' knowledge on how to construct and expand sentences (handouts are provided every week depending on their test results)
- Weekly recorded speaking test.
- Transcription and Prescription (suggestion).
