SPEAKING

Prescription

**Strict monitoring of language improvement in speaking through structured grammar approach.
(Weekly Grammar Focus based).**

Students are given a certain grammar focus (Ex. Week 1- Basic Sentence Pattern). At the end of the week, weekly recorded video examinations are given. Video transcriptions are given after the exams.

The main goal of SP program is to increase the number of used expressions and to immediately correct the errors of the students so that they would be able to use correct expressions in everyday conversations.

A professional teacher in charge of SP transcribes the students spoken output from a recorded video and checks the errors on grammars, pronunciation and fluency.

This program is designed to diagnose students' weaknesses and provide necessary adjustments based on the diagnoses.

Features

- Daily grammar lessons to enhance students' knowledge on how to construct and expand sentences (handouts are provided every week depending on their test results)
- Weekly recorded speaking test.
- Transcription and Prescription (suggestion).
